

## **90 – Day Storage Areas:**

### **Storage**

- **Container of HW can remain in storage up to 90 days.**
- **Containers of HW must be inspected weekly for leaks and signs of corrosion (Part B permit requires every 7 days).**
- **Containers holding ignitable or reactive waste must be located at least 50 feet from the installation property line.**

### **Labeling of Containers In Storage**

- **Containers that arrive from a satellite area must be clearly marked with the date when the container became full (accumulation start date).**
- **The container must be marked with the name of the waste and/or the words “Hazardous Waste”.**
- **EPA waste number(s).**
